

Let your story begin with MPA's Lower School Summer Reading Program!

Join us in supporting our students to be **Super Readers!** Children entering grades PreK-4 are encouraged to participate. Reading 6-10 books with your child or supporting independent reading offers relaxing summer fun for the whole family while building life-long reading skills.

Here's how the program works: Check off all of the places you read this summer on the list below and record the book titles on the back. Turn this sheet in to the library the first week of school and pick up your summer reading prize. Make time to read and play!

Mrs. Lage and Mrs. Petrich

For summer reading ideas check out the MPA Library Website at:
