**Note:** As a student involved in this project, I agree I have fulfilled the expectations described above and that the Project Supervisor has monitored the time I spent on the project. In order to meet an MPA graduation requirement, I realize that I must serve a minimum of 60 hours total in my career. A guideline is 10 clock hours each year as a freshman, sophomore, and junior and 30 clock hours as a senior. I also understand that I am responsible for keeping an accurate record of the hours served so that my supervisor will feel comfortable verifying my hours with her/his signature.
